# KUROPATKIN MAY HAVE TO GO.

Rumored in St. Petersburg that He Will be Superceded by Gen. Nicholaevitch.

# RESPONSIBILITY FOR FAILURE.

Continues to be An All Absorbing Question Among Military Authorities.

St. Petersburg, Sept. 14,-There are rumors affoat to the effect that Gen. Nicholaevitch, inspector of cavalry, may supercede Gen. Kuropatkin at the front. Nicholtevitch has a great fighting record, made during the furkish war. The reports, however, may possibly be only idle gossip.

The question of the responsibility for the failure of Kuropatkin to crush Kuroki Sept. 2, north of the Taitse river, which lost the battle of Liao Yang, continues to excite all-absorbing interest in military circles. According to a Russian correspondent, who throws the blame upon Gen, Orleft, Gen. Samsonoff, who commands a division of Siberian Cossacks, was ordered by Gen. Kuropatkin Aug. 31 poccupy the Yen Tai coal mines and hold the extreme left while he launched his main army against Ku-

During the night Orloff, with the freshly arrived European reserve men, came up, and, being Samsonoft's senior, took over the command at this point. The next morning, before the arrival of the daily orders, Orloff, on his own initiative, decided to attack Kuroki's extreme right and directed Samsonoff to execute a flanking movement with his Cossacks.

The latter declined to do so until he had time to reconnoiter and also be-cause, as the correspondent declares, driofts reserve men, who had not preriously been under fire, were already showing signs of nervousness. Had Samsonoff obeyed, the correspondent says, he would have been cut off and annihilated, as the Japanese were already advancing, having opened a ter-rific fire on the Yen Tai mines, bewhich Orloff's men flinched and

While in the thick of the retreat one of Kuropatkin's staff officers dashed up with orders for Orloff to hold at all hazards the position he had just abandoned. Orloff's troops had then retired almost to Yen Tai station. There Sammones Cossacks at last railfied them semewhat, but all the burden of fighting the Japanese fell upon the Cossecks. Samsonoff was informed that Gen. Stakelberg was hurrying to his rescue, but the latter did not arrive unfil the following day.

a the meantime, Kuropatkin, believbg that his left had been turned, or-dered a retreat, Sept. 2, but Samsonof's Cossacks saved the line of retreat Gen. below 17,000, of which 4,500 were killed. In the opinion of officers who have read the report, it is favorable to Gen. Kuropatkin, practically disarming the previous disposition to criticise him. The report explains the successive withdrawal of his three lines south of Liao Yang, how the main army crossed the Taitse river; Gen. Kuropatkin's assumption of the offensive; Maj.-Gen. Orloff's reverse and the consequent order for the retreat of the whole army to Mukden Sept. 3. The circumstances of Maj.-Gen. Or-loff's reverse, which Gen. Kuropatkin

considers responsible for the necessity of his retirement were explained in these dispatches today, substantially agree with Gen. Kuropatkin's version. The latest reports of the war office, coupled with Gen. Kuropatkin's detailed report, give a distinctly more cheerful view of the situation. The

army is "rested and reinforced by the whole of the first European corps. The bulk of it is encamped and entrenched around Mukden, with the rear guard fifteen miles south." On the other hand, the war office's information indicates that the Japanese

forces, which have not yet recovered from their terrible exertions and losses at the batle of Liao Yang, are concentrated at Yen Tal, not venturing north, Small columns of a few tibusand men each occupy positions along the roads leading to Mukden, east and west of the railroad. The war office has no in-formation to show that the Japanese columns are north of Mukden.

#### VICEROY ALEXIEFF.

#### He Asked to be Relieved as Commander-in-Chief.

Paris, Sept. 15 .- The correspondent at St. Petersburg of the Echo de Paris "I learn authoritatively that Viceroy Alexieff asked to be relieved of the functions of commander-in-chief by land and sea of the Russian forces in the far east, but not of those of viceroy, his object being to avoid give semblance of consistency to the eports of antagonism between himself and Gen. Kuropatkin. He asked that he be allowed to continue to be responsible for the political and diplomatic administration of the far east and to remain at Harbin. The emperor grant ed this request, and therefore Gen. Kuropatkin will be solely responsible for military operations there.'

#### EVACUATION OF LIAO YANG. Japs Forced Out Because of the Stench of Dead Bodies.

Mukden, Sept. 14 .- (Delayed.) -- Acording to Chinese advices, the evacua? tion of Liao Yang by the Jax, ese has been forced, owing to the fearful stench arising from dead bodies, The Japanese were today (Wednes-

day) fortifying the approaches by way of the river. Small detachments of Japanese moved northward from the Taltse river, preparations for an advance evidently still continuing, although the second stage of the Japanese movement has not yet been com-pleted by any means. The first was to the north, as if for a turning move-ment, but Gen. Kuroki is now going east while to the westward preparations are being made to send a farge force up the Liao river. For this purpose the Japanese already have taken 100 large barges with which they intend o ascend as far as Tie pass.

It is stated that the Japanese are carefully preparing their turning and flanking movements, and will not en-gage in another big battle 's fore the occupation of Tie pass. These preparations are expected to occupy one month.

#### Japs Running Mukden. Mukden, Sept. 14 .- The Japanese are

causing a sensation among the natives of Manchuria as they advance by esablishing their own system of taxation and administration as though the coun-try were actual Japanese territory. They are paying for supplies with promissory notes on the war fund, a blanket note being given for the payment of each village on the basis of population, leaving the residents to diide pro rata. Few of these notes have yet been col-

lected in cash, but Japanese officials are collecting a cash tax levied "for war expenses." They have even noti-fied the governor of Mukden to discontinue the salt tax, as it will be readjusted upon a Japanese basis. They have almost doubled the customs duties at Yinkow, and have placed such a heavy tax upon the thousands of boats sailing thence as practically to

paralyze trade. Much bushwhacking is going on upon the road south of Mukden and many Russian soldiers have been killed from the fields of Chinese corn. However the corn harvest will soon begin and when the fields are cleared the country will be much more suitable for military operations. The weather continues unsettled.

The conduct of the Japanese since their occupation of Liao Yang indicates a laxity of discipline. One of the first incidents after the occupation was the opening of a number of music halis.

## Alexieff at Mukden.

London, Sept. 15 .- Viceroy Alexieff, according to a dispatch from Shanghai to the Morning Post, has arrived at Mukden. The same correspondent say the Chinese government has appointed a special envoy to Japan and Russia to arrange for the retrocession of Manchuria to China.

Altogether there are 100 dresses of fine material, all richly trimmed Two dress makers appeared at the custom house and claimed some of the articles, submitting a consular invoice of \$4,000. Their request was refused as they offered no explanation except that the boxes were sent among the baggage on the ship in order to procure quick delivery.

#### CEN. KURDPATKIN'S REPORT.

Creates a Better Feeling Towards Him | Says He Found it Necessary Last -Pays High Tribute to Every Arm of the Service.

St. Petersburg, Sept. 15 .- Inactivity of the opposing armies of Russia, and general character is reported. Information coming from an authoritative source in St. Petersburg is that the Russians will winter at Harbin, but the fact that there probably will be two months of good weather for military operations before extreme cold weather sets in leaves room for a revision of this purpose, in the light of nnese are reported to be collecting taxes and otherwise administering affairs in Manchuria as though that country were

The publication of Gen, Kuropatkin's report of the fighting from Aug. 26 until the retreat on Mukden has created a better feeling in St. Petersburg. report distinctly places upon Gen. Or-loff the responsibility for the failure to hold the heights in the vicinity of Syk-wantun and so to check the Japanese advance. The manner in which the retreat was carried out in the face of the terrible conditions of the country and the determined pressure of the Japanese armies, does much to restore Gen. Kuropatkin's prestige in military

conquered territory

The report dwells on the terrible difficulties encountered during the retreat at Liao Yang from positions on the southern front, when 24 horses and a whole company of infantry harnessed to a single gun were not able to re-move the gun from a quagmire. It is shown that the retirement from Liao river was carried in good order and with celerity under cover of night on Aug. 31, when it had become evident that Gen. Kuroki was making a determined drive at the Russian communi-cations north of Liao Yang.

Gen. Kuropatkin pays tribute to the courage and devotion of every arm of the service under his command, and especially to the bravery of the troops to whom was set the task of recapturing the Sykwantun hills, on the north bank of the Taitse river.

The engagement of the night of Sept. 2 was productive of the most severe fighting of the whole battle. It was practically a company commanders fight, commands becoming separated in the darkness and independent units cting on their initiative with the one object of carrying out the commander's orders to retake the heights. This acount puts the Russian soldier in a very different light from the generally acautomaton, capable only of acting in a mass under specified instructions.

The necessity of retaking the Sykwantun heights formed the first break n Gen. Kuropatkin's plan and lost him whole day, Sept. 2, and thus delayed aunching the blow against Kuroki; when the Russians had just regained a foothold on the coveted posi-tion Orloft's failure to hold the Japanese against the Yentai threatened the envelopment of Kuro-patkin on the north, interrupted the Russian scheme and forced the now historic retreat to Mukden.

The report as given out does not state the casualties, but the Associated Press is authoritatively informed that they were under 17,000.
